Monica,

You might be interested in Region 5's comments.

All,

I am sending around my draft comments/edits to the FAR Technical Proposal and my draft concurrence memo with the major comments summarized.

I know that I missed some discussion while I was out last week, so some of my comments/concerns may have already gotten addressed. Regardless, I wanted to put this out to this group to make sure that I hadn't forgotten anything we had discussed via phone. Please let me know if you see anything I missed or if you have any questions on a couple of new items that only just came up as I was reading the proposal.

Thanks,

Natalie
